

# AI-Powered HR Bot

## React to employees questions instantly

Leave routine employee requests to our Digital Agent who is **available 24x7** via any **communication channel** of your choice (voice, chat, email, social media or other messaging platforms). It significantly reduces response time to your employees and allows HR teams to focus on more important queries. With our AI-driven platform, you can **automate up to 43 % of employee interactions**.

 43 %

of fully automated  
conversations

 51 %

reduction of human effort

## Automate your HR workflows

Our Digital Agent makes your **onboarding process smoother** and can transform it into a self-service process. With our Digital Agent, companies can automate processes such as **document submissions, training plans and regular check-ups**.

With our Digital Agent, employees can also:

- Check leave balances
- Check salary information
- Apply for a leave
- Report an issue/Provide a feedback, etc.

DIGITAL AGENT

You have 12 vacation days left.

Welcome to the team! Here is your onboarding schedule for next week:

Please upload your tax declaration documents here:

## Digital agent:

- Authenticates employees by name, employee ID, voice biometry, or other information.
- Handles the interaction automatically without the participation of a live member of HR team.
- In case of more complex issues, it connects the employee with a competent HR person or department.
- Sends automatic notifications: it informs employees about important events or activities.
